Already integrated into VIP Lightspeed®.

Enjoy hassle-free settlement

Check deposits are automatically deposited!

Boost Check Volume by Over 30% with Deferred Settlement

Maximize Cash to Your Floor

Pavilion Payments' Choice4™ deferred settlement lets patrons extend eCheck settlement to 7, 14, 21, or 28 days, giving them more options and increasing their capacity to play.

It's Easy for Your Patrons:

- Patrons simply provide bank account information and valid photo ID to enroll
- Pavilion generates a limit for immediate cash access at the cage or VIP Financial Center kiosks
- Pavilion settles with the patron and the operator on the agreed date

It's Great for Your Casino:

- New fee enablement allows operators to charge fees for all deferred settlement options*
- Patrons have more flexibility to play at higher responsible levels
- Every approved transaction is 100% guaranteed by Pavilion Payments

*Terms are subject to state and tribal gaming authority regulations. Consult legal and regulatory advisors before implementing Choice4™ and related fee structures. Charges for same-day settlement and deferred settlement dates must be the same.
